

<https://github.com/linandylin/-PLMA/tree/main/20240325>

The image shows a Jupyter Notebook interface. At the top, the title bar reads "B1202005_exercise2.ipynb" with a star icon. Below the title bar are tabs for "檔案", "編輯", "檢視畫面", "插入", "執行階段", "工具", and "說明". On the right side of the title bar are two icons: a red crab and a brown dog. The left sidebar contains icons for a menu, search, variables, output, and file explorer. The main area displays a Python script with the following code:

```
a={'姓名':'賴宏璋','性別':'男','作業分數':[80, 95, 100, 90]}
b={'學號':'M1129020'}
a.update(b)
a['作業分數'][1]=100
del a['作業分數'][0]
print(a)
c=list(a['作業分數'])
平均分數=sum(c)/len(c)
print("平均分數為:",平均分數)
```

Below the code, the output is displayed:

```
{'姓名': '賴宏璋', '性別': '男', '作業分數': [100, 100, 90], '學號': 'M1129020'}
平均分數為: 96.66666666666667
```
